

FEATHER FLAG BANNERS - SETUP INSTRUCTIONS

Step 1

Step 1 - Plug and connect the four Feather Flag Pole Sections together, to set up one long straight pole.

Step 2 - Then insert the Pole to the Pole Pocket (Black Sleeve) of the Feather Banner. It would automatically be bent and run into the curvature of the Feather Shape of the Flag.

Step 3 - Finally pull and hook the Rubber Band* to lock and fix the banner flag to the Feather Flag Pole. That's it!
***Be reminded that you might need to adjust the tension of the rubber band a bit to fully pull and stretch the banner open flat.**

Step 3
